## SOUTH AFRICAN MASTERS WATER POLO MESSAGE FROM THE PRESIDENT

Welcome to a very Auspicious Occasion - the 30th Annual SA Masters Water Polo Tournament – once again held in East London in March 2018.

This is a fantastic milestone in our History, and will be marked by some very special costume awards. Last years event in East London was again a great success – well done to Andrew Reeves, Bev Manson and their team, a big effort guys!

Once again the Rules have not changed, so the format will continue as before – a format that has proven to be highly successful, even though the structure will again be discussed at the AGM to consider improvements. Andy Reeves and his team have proven their capabilities in the past, and I am sure we will again get the benefits of their renowned expertise, a week-end of Border efficiency, fun and enjoyment.

Good luck to Andy and his team for another successful Tournament, and let us all support them to the best of our ability by playing in the right spirit! One again a time to renew young and OLD friendships. Good luck to all for an enjoyable Tournament!

**Neville Clarence**  
President, SA Masters Water Polo

## BORDER MASTERS WATER POLO – CHAIRMAN'S WELCOME MESSAGE 2018

It is once again a privilege to welcome you all back to the Buffalo City, East London for the 30th SA Masters Water Polo Tournament. Although we are slightly down in the number of Teams entered this year, we are pleased to announce that we have an International entry for the first time in many years.

A "Brazilian" team from a town called Recife in the province of Pernambuco have entered in the 35+ section. Flavio Rosa has been organising all of this from Johannesburg and we look forward to welcoming him and his team in true master's spirit.

The 35 teams entered with approximately 360 players is mixed throughout the 25+, 35+, 45+ and 55+ sections. A tournament like this is not possible or successful without the support of various sponsors. This year we would like to thank our main sponsors: **SA Breweries, Red Alert Security, Cleaning and Medical and BUCO Hardware Buildware.** Other notable contributors include: Copyworld (Programme), Time Clothing (T-shirts), Bay Liquor (Mark Muller Bar convenor) and Vaughn Meechan (Tournament Director).

Thank you to the 'Border Masters Committee' for the hours spent in making sure this event is a success. We have arranged an entertainment surprise for you on Friday evening amongst other great nights planned.

Without the dedicated task of referees and table officials, this tournament is not possible and I appeal to all players and supporters, to accept their decisions in true master's fashion. Enjoy the hospitality of the 'sports capital' of South Africa, East London. See you on the pool deck. Cheers,

**Andy Reeves**  
Masters Chairman

## Fun Water Polo Terminologies

**Blind Pig** - On weak side (off ball side) player swims behind his or her player where he or she can accept a pass for a quick shot.

**Cherry Picker** - Player who does not cover back on defense and who is hoping for a turnover which will allow him or her to score unguarded.

**Donut** - A goal scored over the goalkeeper's head when the goalkeeper has both hands up and crossed by his or her head trying for the block. The arms look similar to a donut.

**Egg Beater Kick** - Type of support kick which is best described as an alternating frog or breaststroke kick.

**Off The Bottom** - Player using the pool bottom to gain advantage or simply to play the game is a rule violation; however, players may rest on the bottom.

**Walking The Ball** - Ball is firmly gripped in the hand that is above the water as the player eggbeats toward the goal. As the player moves toward the goal the player's ball hand fakes or fancies a shot on goal.

## fun facts about water polo

Water polo is one of the best workouts around, burning a mind-boggling 600 calories per hour! Water Polo was originally termed water rugby.

The word polo comes from mispronouncing the Hindu word 'pulu' meaning ball.

Water polo players swim up to 2.4 km during the course of a water polo game.

Water polo balls were once made of leather, which consequently would fill with water and weigh as much as 9 kg's! Image blocking one of those as a goalie.

A Water Polo ball can speed up to 95 km per hour.

Water Polo was originally considered too rough for women and they didn't start playing until the 50's.

Men's water polo was the first team sport added to the Olympic Games in 1900. Woman's water polo made its Olympic debut 100 years later at the 2000 Olympic Games in Sydney, Australia.

The youngest person to ever play Water Polo in an Olympics was 14 years old.

In early water polo there was no difference between an ordinary foul and an ejection. So if you fouled a player you fouled him good.

In early water polo games, it was common for players to get knocked out or hurt from physical play. Players would also pass out from being held underwater too long, and many players go sick from the poor conditions of the water.
